Advantech Industrial Display Systems

Advantech designs, develops and manufactures display systems that meet the demands of industrial display markets in gaming, transportation, medical, and many system integration markets globally. Combining proven technologies and flexible manufacturing, Advantech creates class leading solutions for your customers that deliver significant product differentiation and competitive advantage. Our customer-centric approach reinforces all of our activities and in an essential part of the thousands of products we ship daily.

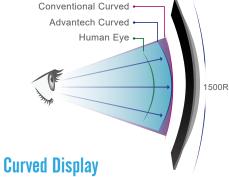

Optical Bonding

Optical bonding technology is to inject optical glue into the space between a cover glass/ a touch screen and the LCD panel to enhance the readability and durability. Advantech develops both Wet Bond and Dry Bond technologies for customers' different needs using proprietary materials and process in house in Taiwan and USA.

High Brightness

To withstand strong ambient light in the external environment, high brightness solution is required. With in-house LED light bar design and optical films, our solution can boost brightness up to 2000 nits with a low-power backlight source saving about 20% less energy than competing products with the same level of brightness.

Advantech curved display technology is available with a variety of radius of concave or convex surface such as 1500R or 800R to create a comfortable and immersive viewing experience. Packaged together with an industrial grade video card and power supply, our solution is available with standard video inputs and can be specified with or without 10-point-touch overlay.

Medical Imaging

Medical imaging applications require highly consistent image reproduction. Our solutions cover panels, AD boards and open frame monitors with color management functions which help improve brightness stability, gray scale, color temperature and color gamut and are fully compliant with the DICOM standard.

Indoor/ Outdoor Industrial LCD Kits

Key Features

Proven Compatibility

All Advantech IDK series are tested to be compatible with all Advantech embedded boards with LVDS cables, ready VBIOS and touch driver support.

Enhanced Readability

IDK-2000 provides 1200 cd/m² brightness to withstand the ambient sunlight (normally 10,000 nits) and guarantees excellent visibility with low power consumption.

User-friendly Interface

IDK series is pre-integrated with touchscreen to deliver user-friendly interface with both single/multi touch options.

Open Frame/ Panel Mount/ IP65 Monitors

Key Features

Ultra-slim Design

Featuring an ultra-slim and compact profile, the Advantech IDS monitors measure 20% less than market average for easy integration

Flexible Mount

IDS-3000 series support flexible rear/ front/ wall/ stand mount with VESA mounting interface standard.

Dust/Humidity Protection(IP65)

IDS-3300 Series are designed with IP65 certified enclosures to ensure stable operation in harsh environments.

Proflat Monitors/ Digital Signage Displays/ Curved Displays

Key Features

Portrait & Landscape Modes

Our monitors enable you to display content in both portrait and landscape modes.

Super Wide Ratio

DSD-5000 series allows for maximize available space and dynamic scenarios with ultra wide ratio design.

Triptic[™] Function Built-in

CRV series is built-in with Triptics which allows customers to define their user zones on CRV up to 3 inputs via HDMI and Display Port without the need for changes to game software.

Optical Engineering

- Backlight design
- Optical bonding
- Brightness enhancement
- Thermal control

Mechanical/ Material Engineering

- Chassis, glass, polymers, adhesives, light guides
- Open, Closed Frame, Proflat designs
- Panel cutting
- IP54/IP65 solution

System Integration Service

- X86/RISC computing
- Touchscreen/button integration
- BIOS customization

Key Applications

Our teams develop hundreds of new designs each year and are veterans of many demanding applications such as:

Transportation

- Ticketing kiosk
- Passenger information signage
- Marine

Medical Ultrasonic

- Ultrasound
- Clinical equipment
- Surgical imaging

Quick service kiosk

Outdoor digital signage

Vending Machine

- Point of sales
- Digital signage

Focused Applications

Designed with ruggedness and longevity in mind, our outdoor display solutions provide an reliable alternative to off the shelf monitors. Built with our LCD optical enhancement solutions, wide temperature design, and robust touch input, our large range of sizes and configurations meet all demands in this area.

Applications

Gas stations, bike rental systems, outdoor ATMs/payment terminals, parking lots.

Suitable Solutions

IDK-2000, IDS-3000 series, optical bonding, high brightness

Transportation

Nowadays, displays are ubiquitous in transportation applications. Advantech provides comprehensive display systems for transportation markets such as for rail, airport, marine, and busses. Transportation displays usually require specific features such as wide view angles, high brightness, wide temperature and ruggedness to fit into these diverse environments.

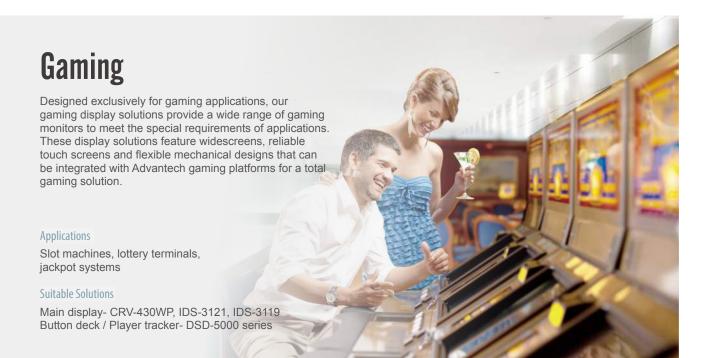

Applications

Passenger information systems, train/ marine control systems,taxi advertising screen, in-flight entertainment systems

Suitable Solutions

IDS-3000 series, DSD-5000 series, optical bonding, high brightness

Selection Guide

Industrial Display Kit IDK-1000 Series

	IDK-1105	IDK-065		IDK-1107W		IDK-1108	IDK-1	110W	IDK-	L110

Your Industrial Displays Expert

Industrial Grade and Quality

Advantech provides industrial grade display solutions for industrial usages which require more rugged specification and high quality.

Extended Longevity and Warrantv

Global Capacity and **Local Service**

We offer 2 years of product longevity and warranty. Extended warranty between 3-5 years is also available.

Advantech provides display systems globally with three manufacturing centers in Taiwan, China and USA and branch offices in 23 countries to better service customers.
